JOHN RAB, Town Clerk. TO THE 154 CITIZENS WHO DID ME THE HONOUR TO RECORD THEIR VOTES IN MY PAYOUR AT THE LATE ELECTION POP

GENTLEMEN, -I take the first CENTLEMEN,—I take the first opportunity of formally thanking you for the honour shown me by you, in giving your votes in my favour on the necession of the election for Mayor on the 16th instant; and I feel that this expression of gratitude on my part is the more due to you, as you alone, out of above 400 citisens virtually pledged to support me, took the trouble of honorably recording your votes on my behalf.

I think it right to state, for the satisfaction of my friends, why I made no personal canvas, or employed the usual machinery deemed indispensable to the success of all popular elections.

indispensable to the success of all popular elections.

The Mayoralty being purely a judicial and facal office, the duties of which are of an administrative character, I deemed the practice of a personal canvae, and the consequent incurring of personal obligations, altogether inconsistent with the dignity of the Bench and the independence of the Magistracy.

This is the reason which kept me aloof from any personal canvae. However gratified in the prospect of being elected to fill a second time the position of Chief Magistrate of your city, I could not, entertaining this opinion, personally solicit, or otherwise seek to influence, the votes of the citisens,

I am, Gentlemen.

Your most obedient servant,
OHOR.

THE WEATHER—From two o'clock F.M. on Monday, until a little after noon on Tuesday, a thunderstorm remained hovering about Bathurst, the rain at intervals falling heavily in different directions all round, but comparatively little fell at Bathurst. At about three F.M. on Monday we had heavy hall for a few minutes; light rain also fell twice during the afternoon, accompanied on the last occasion by heavy thunder and lightning. It rained gently once during the night. On the morning of Tuesday, it rained lightly for about an hour, and at about half-past twelve cleared entirely away, being succeeded by wind. The heaviest part of the storm was on Monday evening, in the direction of King's Plains, and wore away from thence in a north-easterly direction. It has often been remarked that when a thunderstorm has arisen, and there is every prospect of rain falling heavily here, the mountains appear to divert its course, and with attractive power draw it away from the plains on which our town is situated.

The case being proved against the unfortunate man, he was, in default of bail, sentenced to one month's imprisonment, in order that the necessary steps might be taken for procuring his admission into the Lunatic Asylum. CATHEDRAL PILLARS.

THE COMMITTEE for carrying out the design of certain Lay Members of the Church, to commemorate the Meeting of the Australasian Bishops, by immediately crecting the six Western Fillars of the Metropolitan Cathedral, and inscribing on each the name of one of the Sees, think it right to communicate their proceedings to the Subscribers, showing the present state of the undertaking.

It has been resolved, that there shall be simply a band, or soroll, on each pillar, with the word Sydney, New Zealand, Tasumania, Adeleide, Melbourne, or Newsastie inscribed thereon; the three first-named on the three northern pillars, i.e., "Sydney" on the seatern most pillar, "New Zealand" on the name of the several Bishops with the event which the Inscriptions are intended to commements, it has been further resolved that there shall be carved on the two spanderle, above each pillar, the armorial bearings of the See, and of the individual on the Wew Regland. DERFECTION IN BLACKING is an ew obtained in L HARRISON'S Patent Japan Jat Blacking, considered by the best judges in London to be for superior either to Day and Martin's or Warree's, being manufactured on purely chemical principles, is warranted to keep a jet black polish; it softens and improves the leather, and it is in every respect the best blacking ever offered in the colony. Having been so much approved of in London, several friends of the proprietor, knowing i's excellent qualities, have advised him to introduce it in Sydney, being fully persuaded it only requires a trial to prove that it is superior to any ever offered to the public, here or elsewhere. To be had wholesale at the Office, No. 5, Bridgestreet, and sold retail by most of the vendors of Blacking in Sydney.

TOWNSHIP OF MARULAN.

In bringing this very valuable property before the public, the suctioneer considers that the mere mention of the fact of the intended cale, with time and place, would be quite sufficient to ensure a ready offer, from its being so well known to all partice acquainted with the country. But there being now many cepitalists on the lo.k out for eligible investments who may not be acquainted with this property, he considers it advisable to give an outline of the particulars, for their information.

MR. GEORGE A. LLOYD

(Unless previously disposed of by private contract,)
THOSE extensive, substantially-built, and highly valuable premises, situate in the most commanding spot in the township of Marulan, and so well known as the "FREEMASONS" TAVERN," WITH
THE STORE ADJOINING THERETO

For the convenience of intending purchasers it is intended to sell the property in two lots (the whole comprising an area of half an acre), as sub divided on the plan, which can be in-

The "Freemason's Tavern" is a most extensive and costly building, and to be theroughly and properly appreciated must be seen. The range of buildings extend upwards of One Hundred and Fifty Feet back from the main frontage. It comprises 16 most commodious rooms, with taprooms, kitchens, outoffices, stabling for 18 horses, coach houses, barn, storehouse, with every other possible manner without regard to cost. The rooms are handsomely corniced and fitted up, stucco plastered, and every room is furnished with Venetian shutters. The buildings are all of stone and brick, and have nearely been erected three years. A large and elegant verandah surrounds a considerable portion of the premises.

mises.

As a stand for business the situation is not to be equalled, being at the junction of the Bungonia Road leading to Queanbeysn, Braidwood, Maneroo, &c., and the Great Southern Road leading to Port Phillip and the intermediate towns of Yase, Gunning, Gundagal, &c. In fact, the whole of the immense traffic to the outhward must pass by the door, ensuring a arge, increasing, and highly lucrative business.

The Store adjoining is a large stone building not yet quite finished, but is a very substant in a rection, and when completed would sommand an undoubtedly safe and profitable trade.

There is a large garden, well laid out, in the rear of these properties; there are also exten-sive stockyards at sommand.

On SATURDAY next, 21st inetant,

The WILLIAM AND JAMES was built at Brisbane Water, and arrived in Sydney about 15 months since, when she was purchased by the present owner at a low figure for each; she was then taken on the Patent Silp, coppered, and afterwards fitted with cabins, and equipped in the most complete manner, at a cost exceeding upwards of £1350; this being only about 11 months since, everything on board is nearly as good as new, and she is most liberally provided with sails, spars, gear, and other equipments.

The vessel was built expressly for the cedar trade and bar harbours—consequently has a very light draft of water; her hold is 8 feet 9 inches high, and she will carry 45,000 feet of cedar. She is most substantially and faithfully built—is 64 feet overall; beam 21 feet, and double kneed

The vessel can be inspected at the Market Wharf; and a list of her stores at the suctioneer's rooms, where all further information can be obtained.
